3. Maintenance By Lot Owner: Mowing and edging of individual site(s) by lot owner will be permitted but will not hinder or restrict cemetery workers in the performance of their duties. If individual site(s) are not mowed and edged when cemetery workers are mowing and edging the same section, those areas will be kept at the same level as the entire section by cemetery workers. Lot owner may request to Cemetery Sexton that City maintenance equipment not be used for the upkeep of their lot(s) unless determined necessary by the cemetery staff. Cemetery Sexton will obtain contact information including, but not limited to, contact name, address, city, state, zip, phone number (cell and residential), and email address for owners requesting individual maintenance. Individual maintenance contact information, changes, updates, and all other pertinent information will be provided by the Cemetery Sexton to the City Hall Cemetery Clerk for record keeping. Cemetery staff will provide and place one reflective marker per plot (eliminate red flags) for each lot owner who submits a request to the Cemetery Sexton that City maintenance equipment not be used for the upkeep of their lot(s). Reflective markers will be placed by cemetery employees at a predetermined location and height by the headstone. Reflective markers will designate that contact(s) are responsible for the maintenance and upkeep of the plot(s), excluding City employees from mowing and/or edging on that location. This allowance does not give said contact permission to violate any other cemetery ordinance. It is the contact's responsibility to properly maintain the plot while not disturbing the reflective marker. If the reflective marker is removed and not replaced, cemetery employees will assume upkeep. Plastic flags or markers of any other kind are not permitted, except for the designated reflective marker.
